Delta Rank (High v. Control)

lipoxigenase pathway  
axonemal dynein complex assembly  
long-chain fatty acid biosynthetic process  
cobalamin metabolic process  
fatty acid beta-oxidation  
NAD metabolic process

single strand break repair  
G-quadruplex DNA unwinding  
V(D)J recombination  
negative regulation of telomere capping  
mRNA 3'-splice recognition
